National Olympic Committee (NOC)
Afghanistan National Amateur Basketball Federation
(ANABF)

Provision of Support to Afghanistan National Amateur Basketball Federation

“ANABF”

Implementing Body

Afghanistan National Amateur Basketball Federation “ANABF”

Associated Agency:

Afghanistan National Olympic Committee (ANOC)

Project Duration:

Initially One year (January 1st 2007 – December 31st) 2007

Project Objectives:

- **Improvement the Operational and communicational facilities:**

In this regards ANABF require financial support for the establishment of a main office for the “ANABF” in which it can not be provided by National Olympic Committee. Currently ANABF is operating through the facility of one of the NGO with allots of operational and communicational problems.

- **Establishment of the provincial ANABF sub-offices:**

In order to have a better and effective start for the Urbanization and Nationalization of Basketball in the country, ANABF has also planned the operation of at least three sub-offices for the first year in the provinces of Hirat, Mazar and Nangarhar

- **Rehabilitation and repair of the basketball infrastructures:**

It has to be mentioned that there is not any National gymnasium for the ANABF in the National Olympic Committee level. Currently the basketball athletes’ use the out door spaces, and old indoor halls out of the order damaged during the war. These hall are belongs to the education institutions.

Estimated Budget:

ANOC Contribution	USD
FIBA Contribution	USD 1,117,080
Total Budget	USD 2,058,380

Introduction:

As the sports boundless benefits are obvious to everyone, it's widespread in our beloved nation of Afghanistan not only among the students but also among the government officials as well. The first National Olympic Association was established in 13 12 (1933) under the supervision of Mohammad Zahir Shah, father of Nation and Shah Manhood Khan prim minister of that time and his deputy Mohammad Yaqoob Khan. This Association has greatly improved after its establishment and its players participated in national and international sports games as well as in independence anniversary of the Nation. For the very first time, the Afghanistan Olympic delegation participated in the eleventh international games under the supervision of prime Mohammad Yosaf Khan which was held in Berlin. Afghanistan has been inherited with the membership of the international Olympic committee in 1314 (1934) and later the sport used to improve in the country. In 1325 (1946) a sport school was established in the frame of the Ministry of Education and a sport subject was included in schools teaching programs. Sports fields have been leveled in every nook and cranny in the country and by then the Kabul Sport Stadium was built. Afghan players used to participate in regional and international games since then until the civil wars broke out in the country which incurred the rest of the people's social well being as well as the sport aspects have greatly suffered.

The past 10 years war not only destroyed the physical infrastructure of this country but it demolished the social infrastructure of the country also. Statically it can be mentioned that the casualty of about one million and displacement of about 5 million people "to neighboring countries of Pakistan and Iran" is a clear indicator of the problem and current situation in the country. The demolition of the social infrastructure not only tends the Afghanistan socially towered poverty but it also put Afghans in a big problematic of drug mafia environments. Rapid social disruption, breakup of families and communities, destroyed and abandoned physical infrastructures, environmental degradation, prevalence of land mines and other unexploded ordnances, a shattered economy and scarcity of health and educational facilities are still normative in most provinces of Afghanistan. Beside reconstruction of the physical infrastructure it is a high priority to restore the social infrastructure in the country through different trainings, educational support and demonstration activities, such as pprovision of healthy recreational environment for youths. And mobilizing Public awareness and support for action against Drug and Drug abuse which is currently a big problem in Afghanistan because the unemployment rates are extremely high for mainly rural population, and there has been a continuous erosion of civil society and human rights, particularly those of women. So in this case we can also say that the Sport is an alternative to drug abuse.

During the Taliban rule, not taking into account the International Olympic Committee's Charter and their discriminatory behavior towards sports, the Afghanistan international Olympic committee's membership was suspended from the international Olympic movement especially in 1998, because of discrimination of women and girls. Fortunately after the Taliban were overthrown and the Interim Transitional Islamic Afghan government took over, the Afghan National Olympic Committee struggled hard to direct its sports as per the international Olympic committee charter and end the discrimination against women to regain its international Olympic committee's membership. Recognizing the substantial efforts made by ANOC to rebuild Afghan sport in general and promote the participation of specially women and girls in particular, the International Olympic Committee (IOC) lifted the suspension of ANOC in July

Beside the other federations in Afghan National Olympic Committee. The Afghanistan National Amateur Basketball Federation (ANABF) was one of its active bodies in the national and regional levels. It has to be mentioned that the basketball was founded for the first time in 1319 (1940) for

the first time by an American sport teacher in Habibia high school. There is also an unconfirmed indicator that the basketball sport is started for the first time among the Afghan army in Bala-i-Hesar base, so in this case basketball in Afghanistan is 66 years old. During that time it passed through 4 development phases that in each of the phases the role and support of American head associations such as AFAMAC and Peace Corps can be clearly highlighted. It should be clearly indicated that during the past years of war especially as of 1992-2002¹ basketball infrastructures were severely demolished. A large number of our best athletes were killed and and immigrated to the other countries. The physical infrastructure of basketball is totally demolished

During the past two years of reformation and restructuring from the long suspension the (ANABF) had activities in the National and Regional level through participation in the regional tournaments demonstrating the rehabilitation of the basketball sport². The teams were motivated and during the time of restructuring ANABF organized two national wise tournaments funded by UNODC 9United Nations Office on Drug and Crime and for the first time after suspension selected teams were identified in male and female sectors. Players participate in National and regional games and make considerably higher glories for their nation and people. ANABF president participated in the Asian and world basketball congresses in the year 2006.

It is clear that in order to get to the final destination and objective matching the regional and international standards it requires financial and physical support, recourses and planned organized activities to train better athletes and basketball teams in all over the country. So it can be accomplished by motivating the Afghan society toward sport and nationalize/urbanize basketball among the youths. In order to accomplish this idea by taking the initial step in this regards, the newly established Afghanistan National Amateur Basketball Federation “ANABF”decided to have the leading role in this process. In order to take an active initial step “ANABF of National Olympic committee NOC and need strong support for the following planned activities:

1. Improvement the Operational and communicational Facilities

In this regards ANABF require financial support for the establishment of a main office for the “ANABF” in which at can not be provided by national Olympic committee. Currently ANABF is operating through the facility of one of the NGO with allots of operational and communicational problems.

2- Establishment of the provincial ANABF sub-offices

In order to have a better and effective start for the urbanization and nationalization of basketball in the country, ANABF has also planned the operation of at least three sub-offices for the first year in the provinces of Hirat, Mazar and Nangarhar

3- Rehabilitation and repair of the basketball infrastructures:

It has to be mentioned that there is not any national gymnasium for the ANABF in the national Olympic level. Currently the basketball athletes use the ground facilities of Kabul polytechnic university which are still out of the order. So it will be also very effective and high impact step if ANABF could have financial support in terms of resource for the repairing of a spot complex Kabul polytechnic

¹ During Afghan Internal war and Taliban time

² Refer to the Annex “ANABF organization structure, procedure and byelaw.

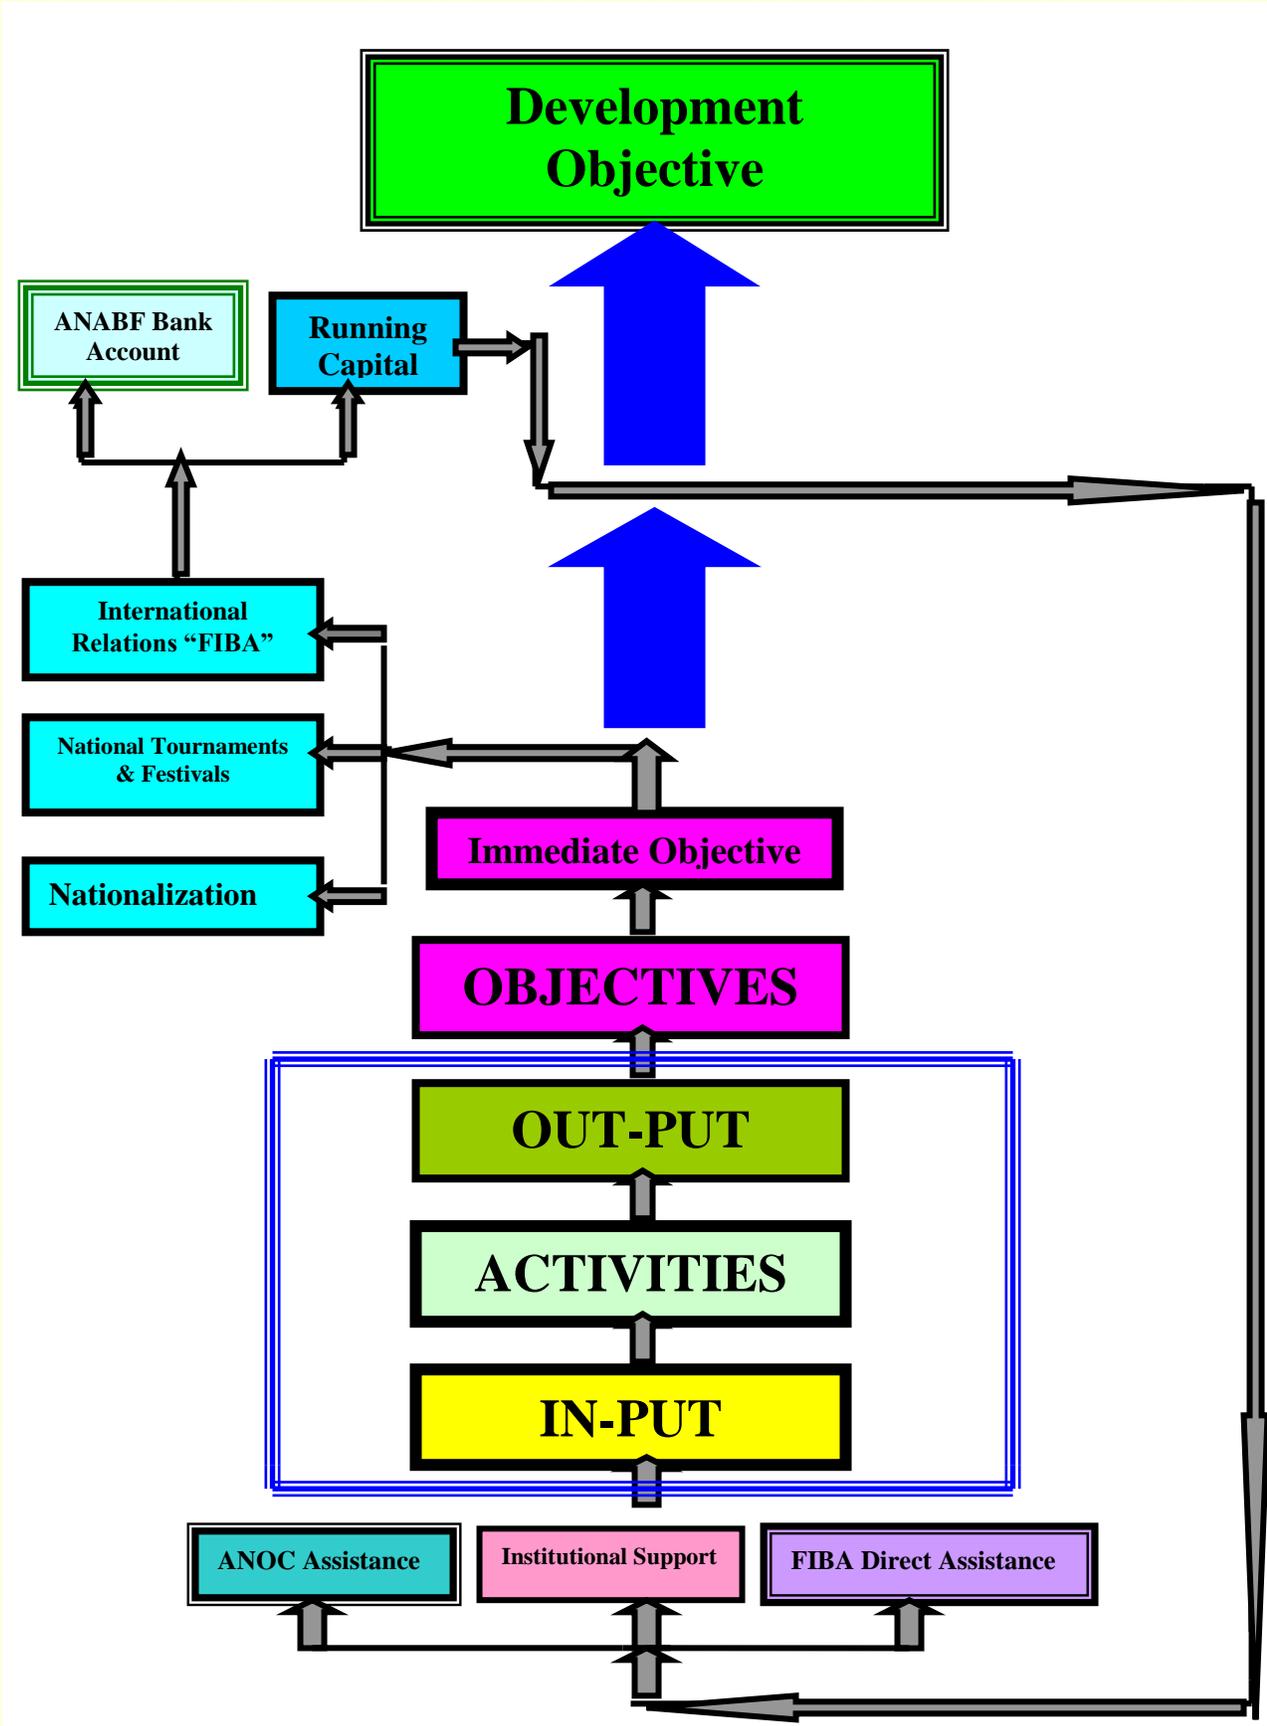

ANABF Costed Activity 2006

Output	Activity	B/L	Amount	Timeline
<i>Output-1: Management structure of ANABF</i>	➤ <i>Prepare Of management structure for ANABF and authorizing of essential staff for the key position.</i>	<i>1300</i>	<i>\$35280</i>	<i>Feb-07</i>
