TO WHOM IT MAY CONCERN

This is a letter of recommendation for Engineer Ahmad Shah Nazir, who has served the International Rescue Committee since December 1988. The International Rescue Committee (IRC) is a private, non-profit organization serving refugees throughout the world. Engineer Nazir has been involved with IRC's Program for Afghans in Afghanistan.

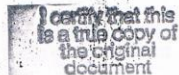

Nazir was recruited to work in IRC's Rehabilitation Program for Afghanistan as Chief Engineer in the Construction Division in December 1988. In this position he is responsible for the design of irrigation repair projects such as karezes (under ground water supply systems), canals and small diversion dams and construction projects, storage buildings in Afghanistan. In addition to the designs of these projects he is responsible for the supervision of a team of 19 site supervisors, surveyors and designers.

Engineer Nazir is a hard working and reliable person.

I wish him every success in the future.

Sincerely,

Thomas L. Yates
Country Director
International Rescue Committee
Program for Afghans
